Dear Esteemed Colleagues

We are excited to extend an invitation to you for our upcoming **Global Stakeholder Meeting as part of the H2MA project**, where we will propose to collaborate to design a common Transalpine Green Hydrogen (H2) mobility route plan. The event will take place on two occasions: March 18th at 11:00 CET and March 26th at 11:00 CET, providing flexibility to accommodate your schedules.

Event Details:

- *Date:* March 18th, 11:00 CET and March 26th, 10:00 CET
- *Duration:* 2 hours
- *Location:* Virtual

[REGISTER for March 18th, 11:00 CET](#)

[REGISTER for March 26th, 10:00 CET](#)

Objective:

The aim of this meeting is to foster collaboration among transportation enterprises, policymakers, bus companies, hydrogen companies, and other relevant stakeholders in designing a Transalpine Green H2 mobility route plan. By leveraging the expertise and insights of diverse stakeholders, we aspire to accelerate the transnational roll-out of green hydrogen mobility infrastructure in the Alpine region.

About H2MA:

H2MA (Hydrogen Mobility Alpine) is committed to curbing CO2 emissions and facilitating the transition to low-carbon transport in the Alpine region. Through collaborative efforts, the project focuses on developing cooperation mechanisms, strategies, tools, and resources to increase the capacities of territorial public authorities and stakeholders. Our ultimate goal is to collaboratively plan and pilot test zero-emission hydrogen routes across the Alps.

Expected Outcomes:

- Improved governance of green hydrogen mobility
- Increased uptake of green hydrogen for heavy transport
- Strengthened cooperation framework between public authorities and companies involved in green hydrogen mobility

Why Attend?

Participation in this meeting presents a unique opportunity to shape the future of green hydrogen mobility in the Alpine region. By contributing your expertise and insights, you will play a pivotal role in advancing sustainable transportation solutions and driving meaningful impact in combating climate change.

Registration:

Please RSVP by **March 17th** to confirm your attendance and receive further details regarding the event logistics.

We look forward to your active participation and meaningful contributions at the Global Stakeholder Meeting.

Warm regards,

H2MA Project
